

NOTE:

THESE ITEMS ARE TRANSFER ONLY PERMISSION.

The vending machine box (mBOX) measures 0.5 x 0.92 x 2.128 meters. The main box is a prim with all other items mesh. There is a large display on the front upper part that changes every 30 seconds. The display contains 12 images, one for each selection button. There are 12 selection buttons, one for each beverage.

The mBOX comes as a local load (-LOAD) or a Casper headless vendor (-CASPER) with 50% affiliate commission. The Load has 96 numbered beverages in each of the 12 buttons for a total of 1,152. Each button has a script that will give one available beverage to the person that touched it. The Casper buttons have the Headless script set to the product for that button. Left and right clicks on the button will bring up the vendor menus like any other Casper vendor.

Transfer only items can be obtained by anyone, passed around, and traded. Each can is delivered unpackaged and ready to use. You can request a specific set of cans for your custom mBOX.

The default rotations for the can are (x:358.85001, y:73.95001, z:190.09999).

Depending on the label design, you'll probably want to adjust the rotations for your desires. The can is a Mesh creation with its top images (open and closed) by Jenny Collazo. The script is by Blu Heron and provided by Jenny.

UNPACKING

The mBOX comes unpackaged and ready to use. A second item may come when purchased inworld on Casper Venders, otherwise see related items in the marketplace. Custom order multi-items purchases are discounted and come in a decorative crate. The crate has a label on one side. The label changes on touch and has the product label, a blank, info, and other images.

CasperVend items will show up in your Objects Folder. SL Marketplace will go to your Received Items Folder.
