

Fractal 1st Burns, Brazil Dark Pinkish.docx

Fractal 1st Burn, Brazil Dark Pinkish

Description (150 max)

Fractal burn pattern in pink, white, and green

Additional Detail

Fractal burning, also called Lichtenberg etching, is a Process that creates images on wood using high-voltage electricity and a conductive solution.

The textures are from three different woods (Tan poplar, Dark Brazil and Red Wood). These "Exotic woods" are sanded smooth and imaged for the textures. I use a Neon Sign Transformer (10KV 30mA) and a solution of water, salt and baking soda. The resulting burns are cleaned and imaged and digitally processed.

Texture is a PNG file at 4096 X 4096 pixels.
