## **NOTE:**

This applies to all Flex Venders in all regions and parcels. Metes are located in an office or cabinet area and vendors can locate anywhere in that region or parcel. The following locations have the meters for their parcels.

TCGWS Office Loft.

SSTCWS: Passage Portal Cap next to portal TO5-J2W.

MOONSHADOW: north side of pedestrian elevator.

BEAROFBOOGIE: Control Room on the game deck.

Areas for small vendors can be located almost anywhere on the grounds or space stations. Residents can have a space for free. Flex vendors are created on demand and not readily available.

Merchants will have a Vendor box in the Office of the local parcel. The boxes will stay in the office and a remote meter can be located for your vending area if wanted. A Casper Security orb can be placed at the vending site to track visitors or provide security.

Please use a vending system for placing products out. A vending system will keep impact low and centralize product management.
