Rev. 08/28/24

NOTE:

These are textures. They are available individually and in crate packs with various patch textures with the same text and logos. They are available as full permission and copy modify products. Crate packs are generally listed on the Second Life Marketplace and individual textures can be purchased in-world at AJ Texture Gallery and other locations.

Version 3 is the complete rework of all the texture sets that came about for moving from the texture vendors to the server vendors. All the textures will be viewable on Casper Vendors. Single textures can be purchased and come as a texture. Groups of textures come in a crate.

Custom packs or patches can be ordered by dropping a notecard into the mailbox at the Gallery or other locations for TCGWS.
