HOLO SCENES

There are nineteen (18) scenes for the holo deck. They are listed by menu label below.

- Temple Garden
- Throne Room
- Wizard's Den
- Sand Planet

The waiting room has the control panels for rezzing holo-deck scenes and loading new ones. Touching the "Holo-Deck Control Panel" will bring up the menu for selecting a scene. Each selection will load a label on the screen above the control panels. Once the scene has rezzed inside the Holo-Deck main room, you can enter to enjoy the scene.

CUSTOM SCENES

Additional scenes can be added by using the control panel on the right. People that want to create and install scenes, will need to contact the station manager Iris Herouin, for the builder's kit and the Station's group access.
