Sandstone Sky Blue Texture

Description (150 max)

Sandstone Fractals. Mixtures of smoke, rusted metals and fractal burn mixed for pattern

Additional Detail

Fractal burning, also called Lichtenberg etching, is a Process that creates images on wood using high-voltage electricity and a conductive solution. The textures come from different woods that are digitally processed for masks and templates. Woods, burned woods, digitized smoke textures, and rusted metals are digitally blended for the sandstone texture.

Texture is a PNG file at 2048 X 2048 pixels.
